KOPPEL CLOAK CO. IS OPENED

NEW STORE SUCCESSFULLY
LAUNCHED AND READY FOR
SUMMER TRADE.

The opening of the Koppel Cloak Co., yesterday and last night was a brilliant success and a new enterprise has been launched that is destined to prove one of the city's most popular stores. At nine o'clock the doors were thrown open and Mr. George Koppel, the head of the company, assisted by Misses Payton, Wood and Rinehart and Mrs. Berry, who will be connected with the house, and a corps of other assistants, including Mr. B. Serkes one of the associated factory representatives, was ready to show the beautiful stock of new goods.

The arrangements of the store are ideal. The decorations of blue and ivory are most artistic and attractive.

The stock embraces everything in ready-to-wear garments for ladies and misses, of the newest and most up-to-date styles. The store is associated with a large chain of stores and manufacturers and its purchases are made in quantities that insure a great saving in prices to its customers. While the opening was intended to display the goods more than to sell them, many of the 3,000 persons who attended the opening insisted upon making purchases and the magnitude of the sales was a surprise to Mr. Koppel, who finds Hopkinsville a business point far in excess of his expectations. He received much high praise on the success of the strategy he has made and he is more than pleased with Hopkinsville and its people.

PUBLIC IS GRATEFUL.

Since the Elks Dining room was taken in charge by Mesdames R. J. Carothers, Jr., and F. G. Petre and opened to the public there has been a gradual drift of the people to this popular and delightful eating place. With Mrs. Petre in personal charge and the reputation these ladies have for catering to the eating public's varying tastes, there is no doubt this will soon become one of the choicest places in this section for those who like first class dining room service.

Regular dinners are served each week day from 12 o'clock noon to 1:30 for 50c. For the evening meal the service is a la carte. Although the present management has been in charge but one week, the people are beginning to find their way to the Elks Dining Room and to appreciate the service they are getting. No matter whether you are an Elk, no matter if you are not a member of the family of some Elk, you have the privilege of this dining room and are asked by the managers and every member of the Elks Lodge to show your appreciation of and an interest in this delightful service.

RULING ON R. R. LITIGATION

UNITED STATES ADMINISTRA-
TION W. G. McADOO, DIRECTOR
GENERAL, WASHINGTON.

To all Railroads and Terminal Companies under Government Control:

The Federal Control Act contemplates that suits for personal injuries may be brought as heretofore, but provides that executions may not be levied on the property of the carrier while in the possession of the Government. This means that while a judgment may be recovered, it devolves upon the Director General to provide for payment and this places upon him the responsibility of considering the merits of the claims and the persons to whom payment is made. It is the desire of the Director General that justice shall be done to all employees who are injured in the discharge of their duties. This does not mean that verdicts based upon prejudice or passion shall be paid or that large sums shall be paid by the Government to attorneys and solicitors who have no claim upon the Government. The right is reserved to consider the merits in determining what provisions shall be made.

It will be the policy of the Government to discourage litigation, and to deal directly with injured person to the end that the injured person may receive the benefit of any amount which the Government pays, without the expense of litigation, and without being compelled to turn over one-third or one-half to an attorney. You may, therefore, let it be known that such claims will be considered on their merits.

As to fee contracts: You are authorized to exercise a wise discretion, and are not required to make payment as provided therein, but only on such terms as will enable the person injured to receive just treatment. If the contract is unjust you may pay the attorney such reasonable sum as will pay him for the services actually rendered.

American Army in France, June 8.—After a short burst of French artillery the Americans attacked the German lines Friday night and swept forward achieving all objectives within an hour. German counter attacks were repulsed with heavy losses to the enemy. The Marines reached the outskirts of Torcy and the French on their left advanced. American observers flying with French observers reported tremendous activity behind the German lines, with traffic moving to the rear equalling that moving to the front. It is believed the Crown Prince realizes he is stopped at the Mans and troops are being shifted for the next blow. Meanwhile more and more German guns are coming into action, indicating that the enemy is preparing to hold positions won while taking the offensive elsewhere.

DECENT POLYGAMY.

A learned Berlin publication called the Political-Anthropological Monthly is advocating plural marriages. It explains:

"The question of allowing Germans to have several wives must be considered very seriously, as it is the only remedy for the shortage of German fathers. This is a patriotic idea. Germany has lost a considerable portion of its noblest blood. A decent form must be found for the introduction of polygamy as the only way of combating the birth-rate reduction."
